if a bengal tiger anxiously splashes around in a small plastic pool in the summer and feeds on supermarket meat is it still a tiger by examining the troubled existence of so called wild animals now living under overwhelmingly domestic and artificial conditions this book raises the dual question of communication and animality the turbulent lives of these trafficked animals reflect current ecological changes embody the precipitous disappearance of animal species and denote the accelerated deterioration of natural habitats this book presents animal biographies such as that of a former laboratory chimpanzee rachel now living in an evangelizing sanctuary or that of an unemployed dolphin nellie put up for auction after the amusement park where it was born and raised went bankrupt echoing one another these biographies make up a bestiary of beings that seem to have leapt from grotesque fiction yet they are anything but imaginary and thus the age old question of species is raised once again albeit in an entirely different fashion than before published in french

the book traces the agrarian movement's evolution from the 1970s through four distinctive phases or dynamics self management reclamation resistance and self determination in the first peasants fight predominantly for the land through colonization of public lands and occupation of land belonging to major property owners in the second phase peasants mobilize to claim public investment in agricultural life and production the third phase of the peasant struggle is legal resistance and intra territorial movements due to paramilitary violence the last one corresponds to the current fight against extractivism and towards territorial autonomy the study is based principally on the histories of the national peasant association anuc established in 1967 of the southern bolivar agricultural mining federation fedeagromisbol established in 1985 and of the national agrarian coordination nac established in 1997 these organizations include peasants who are small and medium owners whose properties are not fully legalized while they farm the land in precarious conditions published in french

a doody's core title for 2023 the 1 textbook in pharmacotherapy providing optimal patient outcomes using evidence based medication therapies updated with the latest advances and guidelines for more than 30 years dipiro's pharmacotherapy has been the essential textbook for learning how to properly select administer and monitor drugs everything needed to provide safe effective drug therapy across all therapeutic categories this new edition has been fully updated with the latest evidence based information and recommendations with content from 300 expert contributors this valuable resource offers detailed descriptions of common and uncommon disease states including treatment by pharmacologic and non pharmacologic means each disease chapter opens with a patient care process helping readers understand the collaborative care model in which pharmacists work and communicate with other healthcare providers for effective coordinated care here's why dipiro's pharmacotherapy a pathophysiologic approach is the perfect learning tool for students pharmacists and other healthcare providers all chapters provide the most current reliable and relevant information available key concepts are included at the beginning of each chapter clinical presentation boxes concisely outline disease signs and symptoms new beyond the book feature points readers to multimedia resources to deepen their understanding of the material diagnostic flow diagrams treatment algorithms dosing guideline recommendations and monitoring approaches clearly
